

Dear SEC employee,

as a non-financial person, simply trying to beat inflation in these very troubled times and taking responsibility of a toddler:

i request you to be fair to the group, i most likely would be in, in your data-bank.

What do you think, i believe has gone wrong with the FED, since disbanding of the Glass-Steagell act and shadow finance organisations atleast since 2008?

I hope that you turn to read the arguments in

<https://www.urvin.finance/advocacy/we-the-investors-sign-on-letter-2>

Under the assumption, that they put people like me, in a fair position to trade, i am advocating the suggestions made.
